

Our mission

Build a long-term partnership based on trust with our customers.

Our vision

Consolidate our leadership position in the industrial market

Our activities

- ✓ checkweighers and x-ray scanners
- ✓ Storage silos
- ✓ Transport systems
- ✓ Processing units
- ✓ Packaging lines (Bag maker/ cartoner / end of lines
- ✓ Case packers
- ✓ palletizer
- ✓ Compressors

About us

We are **UPI** , a company that supplies industrial equipment and spare parts , representatives of world famous brands in west Africa . Our engineers trained and assisted by our partners provide quality after sales service

Our Partners

The best solution with the right partner

WIPOTEC-OCS is one of the world leaders in dynamic weighing technology and product control and inspection solutions with more than 30 years of experience in the market. WIPOTEC-OCS offers its customers from the pharmaceutical ,food , non-food , chemical sectors and other industries market-defining products and machine solutions in the categories checkweighers, X-ray scanners & vision, metal detectors, Serialization & Aggregation .

WIPOTEC-OCS WEIGHING AND INSPECTION SOLUTIONS

SECTEURS :

FOOD

**PHARMACEUTICAL AND
COSMETIC INDUSTRY**

CHIMIQUE

NON- FOOD/ AEROSOL

WIPOTEC-OCS WEIGHING AND INSPECTION SOLUTIONS

CheckWeigher EC-ESSENTIAL

Applications: 100% online checkweighing for simple applications.

Sectors: especially for the food & industrial sector.

Speed : Up to 150 pieces per minute

Characteristics :

- Compact design
- An attractive and competitive price
- Full options

CheckWeigher HC-M

Applications: 100% online checkweighing for specific applications.

Sectors : Multi-sector, in particular for the food & pharmaceutical industry.

Speed : max Up to 250 pieces per minute

Characteristics :

- Compact design
- tilting screen
- Several types of transport available
- Several types of interface available

CheckWeigher HC-A

Applications: Ultra-fast 100% online checkweighing for multiple demanding requests

Sectors: Especially for the food, pharmaceutical, chemical & cosmetic industry.

Max speed Up to 600 parts per minute.

Characteristics

- Large 15 "rotating and tilting touch screen
- A comfortable and ergonomic design
- Modular design for specific extension and adaptation applications
- System adapted for the management of multi-line

WIPOTEC-OCS WEIGHING AND INSPECTION SOLUTIONS

Metal detector combined with checkweighers

WIPOTEC-OCS metal detectors detect any contamination of your products by metal particles. Their use brings greater confidence on the part of customers for optimal product safety. Our detectors can be used both with solutions and with space-saving combinations with WIPOTEC-OCS weighing technology

HC-M-MDi

Weighing and metal detection integrated in one unit

HC-M-MDi-SL

Solid combination with heavy loads

HC-M-WD-MDi

Weighing and metal detection for maximum product safety

HC-A-MDi-SL

Weighing and detection for maximum hygiene requirements

WIPOTEC-OCS WEIGHING AND INSPECTION SOLUTIONS

X-ray and optical inspection solutions/ Product safety

SC-E 3000 | 4000
End-of-line X-ray scanner for professional detection of foreign bodies

SC-2000
A space-saving solution for all types of applications

SC-3000 | SC-4000 | SC-5000 | SC-6000
Great performance and maximum flexibility

SC-B
Ultra-precise inspection of bulk products: Safety control of raw products

SC-S
Compact and reliable inspection of vertical products

SC-S
avec leak detection
Reliable inspection of full bottles

SC-W-V
X-ray inspection, checkweighing and optical control in a compact design

SC-W
Checkweigher and X-ray inspection system in one compact unit

SC-WD
Reliable product inspection in wet areas

SC-WD-B
Perfect product inspection for bulk products in wet areas

SC-V
X-ray inspection and optical control in a compact construction

SC-I
X-ray scanner for integration into filling lines

Quality assurance in the food industry

As a food producer, you need a strong partner who supports you in order to ensure the best possible food security.

Our innovative checkweighing and inspection solutions help you in the quality assurance of your foodstuffs and thus reinforce consumer confidence in your products: From the detection of foreign bodies, including level control, missing and From form to mass determination, our solutions take care of every detail so that you deliver a safe and flawless product.
